Secure Application Hosting  
for Investment Industry Software

Regardless of whether your firm is an end user or a provider of front, middle or back-office solutions, Abacus' geo-available enterprise cloud platform provides the flexibility to host any application, with scalability to add or reduce resources as needed, and the assurance that data is always available, secure and protected.

### Scalable

Our platform offers capacity when you need it and cost cutting when you don't. Host a single application or as many as you need.

### Efficient

Our platform delivers operational and commercial efficiencies while delivering and safeguarding your mission-critical applications.

### Apps We Host

We have expertise in hosting applications and providing connectivity specifically for the financial services industry, including OMS, EMS, RMS, GL/accounting systems and data warehouses.
