abacusGlobalSync

File synchronization for **abacusFlex** clients with geographically diverse offices

Increase efficiency and collaboration across multiple locations while maintaining security and audit controls of your data.

Real-Time Synchronization

Our file servers in multiple data centers have built-in version control to prevent data loss. Whether your primary file server is stored across the country, or even across the globe, you can access your files with reduced latency.

All Your Data is Secure

We secure all your data within the Abacus Cloud and offer optional file server auditing.

Service & Support

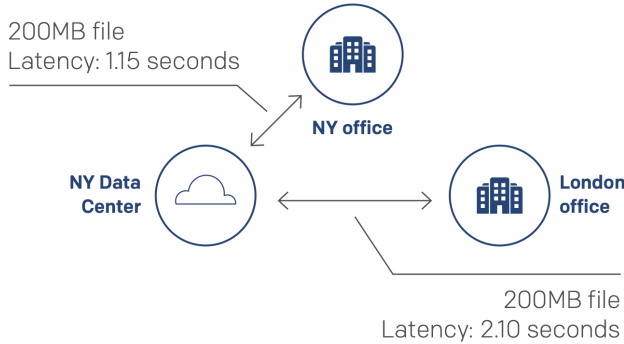

Our premium service philosophy is at the core of everything we do for our clients, from day one through ongoing support.

- 24 / 7 Remote Support
- 24 / 7 Security Monitoring
- Onsite Support as Requested
- Access to Escalation & Specialty Teams
- Dedicated Project Management Team
- 3rd Party Vendor Management
