- IT Asset Control
- Change Control Management
- Acceptable Use
- End-User Security Awareness
- Mobile Computing Device Use
- Third Party Service Provider
- Disciplinary Policy
- Providing End User Security Awareness Training Content for Distribution

Physical

- Physical Security Controls
- Device & Media Controls

Technical

- Password Policy
- Access Controls
- Information System Access
- Audit Controls
- Transmission Security
- Cryptographic Controls
- Patch Management
- Network Security
- Vulnerability Scanning & Testing
- Controls Against Malicious Code & Malware
- Email & Communications
- Intrusion Detection
- Backup Policy

Privacy

- Public End User Data Privacy Policy
- Privacy Data Handling Policy
- Accountability
- Identifying Purposes
- Consent
- Limiting Collection
- Disclosure
- Accuracy
- Retention
- Safeguards
- Openness
- Individual Access
- Compliance Notifications
- Breach Notification Policy
- Breach Notification Letter

Standard Engagement Process:

Typical Timeline per Assessment: 4 - 6 weeks (depending on organization size and complexity)

Scheduling Kickoff: Within 2 weeks of signing ROE

Prerequisites: Regular meetings established with client executives and stakeholders to discuss and review company security policies
